AVIARY SYSTEMS COMBO ONE

MADE IN DENMARK

COMBO THE MODULAR AVIARY SYSTEM

The Combo One Tier is particularly suitable for houses with a low ceiling.

It is also a perfect alternative for classic floor housing for commercial layers with advantages such as automatic manure removal, everything integrated in the system (nests, perches, feed, water), no disassembling during cleaning and optimal use of the floor.

FACTS

System area:

2,94 m² per running meter (31.6459 ft² per 3.2808 ft)

Nest area:
